

**February, 2005 - NetStar-1 Awarded Server Supply Contract at Westinghouse Savannah River Corporation (WSRC).**

NetStar-1, Inc. (Rockville, MD) has announced that, after a competitive selection process, it was awarded a five-year contract to provide Sun Microsystems' Solaris- and Microsoft Windows-based servers to be deployed throughout the DOE facility.

The contract was awarded after extensive evaluation of each bidders' ability to provide integrated installation and support services to the DOE location.

Details of the contract are limited by Government-required non-disclosure agreement.
